Romancing the Rose Episode 1

Let's begin our journey by exploring *Episode 1 - Romancing the Rose*.

The Story:

*Romancing the Rose**Episode 1*

Room 1: We begin our journey with the exploration of the first room in the pyramid of Paganitzu. It seems that the architects spent little time with the design of the early chambers of the pyramid, or are they just trying to create a false sense of security for would-be adventurers. Hum!! Something to think about.

Solution: Begin by moving to the right hand side towards area ①, dig out the two caved in dirt patches to get to the first key and two gems. Move back to the left and proceed downward, but first push the boulder at area ② down 1 space to block the snake and certain death. Once past the snake, continue down to get the second key and the three remaining gems, but wait, are there more hidden gems? Maybe a little more investigation is needed. Once you have all of the keys, a flashing arrow will appear near the exit. Walk up to the exit and move down ↓ into it to finish the room and proceed onto the next one.

Secrets: There are two hidden areas in this level. Located down by the second key as you move past the snake there are two hidden gems that you can dig out of the walls at area ③. Pick up these gems up for the extra points that all adventurers need. The second secret area is accessed by pushing the boulder from area ② towards the right so that it is up against the snake. Once you have done this dig down at area ④ to find the hidden inscription on the wall for a 500 point bonus.
